WooCommerce Connector Capabilities Guide

By Synfynal

WooCommerce Connector

WooCommerce Connector eliminates manual data entry by seamlessly synchronizing your WooCommerce store with Dynamics 365 Business Central. A quick, one-time setup enables automatic data flow between both systems, saving countless hours of work.

The WooCommerce Connector can seamlessly integrate your WooCommerce store with Microsoft Dynamics 365 Business Central, combining the power of both platforms. WooCommerce powers over four million online stores, while Business Central, a cloud-based ERP, supports 40,000+ businesses in managing finances, sales, services, and operations.

Quick View

🚀 Multi-Store Synchronization

Seamlessly synchronize multiple WooCommerce stores with Business Central for centralized management.

🔑 Authentication and Setup

Securely store authentication credentials for each WooCommerce store.

Easily set up new stores with a guided setup wizard.

⏳ Flexible Synchronization

Customize synchronization frequency and automate data updates between WooCommerce and Business Central.

Ensure accurate, real-time data flow with two-way synchronization for items, customers, and orders.

📦 Product and Inventory Management

Keep items, prices, attributes, categories, and variants synchronized across both platforms.

Use the **Smart Mapping Tool** to link existing products and avoid duplicates.

Maintain accurate stock levels with real-time synchronization.

Set default values for new items per store with customizable item templates.

👥 Customer Synchronization

Synchronize customer records, contact details, and order history across both platforms.

Avoid duplicates by connecting existing customers with the **Smart Mapping Tool.**

Define default values for new customers per store using customer templates.

📦 Order Management and Processing

Automatically synchronize sales orders, including tax and shipping details.

Define a unique number series per store.

Filter and selectively synchronize orders based on status.

Automatically create customers and items for new orders.

Track order status at every stage of the lifecycle.

Mark webstore orders as completed once invoiced.

📊 Logging and Error Handling

Access detailed synchronization logs for full visibility into successes and errors.

An automated job queue guarantees consistent, reliable synchronization.

⚙ Customization and Extensibility

Extend the WooCommerce Connector with add-on modules to support both B2B and B2C business models.

Need a custom feature? Our development team can create tailored solutions to meet your unique business needs.

🛡 Reliability

Stay running without interruptions. The WooCommerce Connector delivers 99.9% uptime for seamless performance.

⏰ Save Time

Save time by eliminating manual entry. Automate your workflow and focus on what matters most.

Pricing

Only pay for what you use. Your monthly cost is based on your synchronization usage.
